Published: 28th Jan 2020

Publisher: Facet Publishing

Dimensions: 234mm x 156mmmm

Description

Privacy is a core value of librarianship and yet as a concept, it is difficult to define and in practice, a challenge to uphold.

This groundbreaking new book considers how privacy issues can arise in a library context and what library and information professionals can do to protect the privacy of their users. *A Practical Guide to Privacy in Libraries* features a wide range of practical examples of such issues, providing insights and practical steps which readers can follow. In-depth case studies and scenarios support the examples laid out in the book, while examples of data breaches which have occurred in a library setting, and the lessons we can learn from them, are also included. The book also covers the main legislation governing data protection – GDPR – which will be particularly relevant to European librarians, and international librarians offering services to EU citizens.

The book provides a range of tools through which libraries can communicate how they handle the personal data of their users whilst ensuring that they are following best practice with their privacy policy statements, their privacy audits and data protection impact assessments. Privacy is not the same thing as data protection, and the book outlines the differences between these two concepts. Nevertheless, the book has been written with the requirements of data protection law very much in mind.

Written in a highly practical manner, this book is essential reading for library and information professionals who need to understand and support privacy in the library setting and a useful reference for students and researchers in the field who need to understand this topic in practice.

5.5 Case law on breach of confidence

6 Contracts and licensing agreements

6.1 General principle

6.2 Negotiating licences

6.2.1 Factors that can make or break a deal

6.3 Consortia and standard licences

6.4 Technology solutions

6.5 Use of passwords for licensed products

6.5.1 Usage data

6.6 Further information

References

7 Data protection

7.1 Introduction

7.2 General principles

7.2.1 The GDPR and the DPA 2018 are constantly evolving

7.2.2 Related legislation

7.3 The six data protection principles

7.3.1 First principle

7.3.2 Second principle

7.3.3 Third principle

7.3.4 Fourth principle

7.3.5 Fifth principle

7.3.6 Sixth principle

7.4 Accountability

7.4.1 Documentation requirements

7.4.2 Codes of conduct

7.4.3 Certification

7.5 Processing of personal data

7.5.1 Legal bases for processing

7.5.2 Processing of special categories (sensitive personal data)

7.5.3 Consent

7.5.4 Transfers of personal data to a third country or an international organisation

7.6 Exemptions

7.7 Privacy notices

7.8 Register of fee payers

7.9 Rights of the data subject

7.9.1 Compensation

7.9.2 Credit reference agencies

7.10 Data breaches

7.10.1 Causes of data breaches

7.11 Data protection impact assessments

7.12 Fines and prosecutions

7.12.1 Prosecutions

7.13 Data protection issues for libraries

7.13.1 E-books – privacy concerns

7.13.2 Electoral roll information in libraries

7.13.3 Radio Frequency Identification

7.13.4 Outsourcing

7.14 Data protection standards

7.15 How to protect your information

7.16 Identity theft

7.17 Further information

References

8 Privacy

8.1 General principles

8.2 Obligation of confidence versus breach of privacy

8.3 Codes of practice

8.4 Injunctions

8.5 Privacy and libraries

8.6 Case law

8.7 Further information

References

9 Freedom of information

9.1 General principles of freedom of information
